.....  
pH: 3.45

.....  
Residual sugar: <1g/l

.....  
Total dry extract: 26.2g/l

The Escarpment "Insight Series" allows individual vineyard expression from exceptional sites within the Martinborough Geographic Indication. The vines which have grown this wine have been our pride and joy since being planted in 1999. This is the seventh release from The Escarpment Vineyard's close planted vineyard on Te Muna Road, Martinborough. The spacing of 1.5m \* 1m (6,700 vines/ha) is approaching the planting densities used in Burgundy from where the inspiration for this wine comes.

Fermented in wooden French cuvees, hand plunged and aged in 50% new French oak barriques the wine was given every priority during its elevation and now shows all the hallmarks of a grand young wine on its release in 2013. The season was exemplary in Martinborough with a warmer than average, dry summer allowing perfectly ripe fruit to be harvested in April 2011.

It is at the vanguard of Pinot noir style in the New World and should age gracefully for up to 10 years. The wine is a true reflection of both Martinborough's unique terroir and the skills and experience of winemaker Larry McKenna.
